Travel Policy and Safety: Whitman College prioritizes student safety and well-being when traveling. Please explain the visa process and the type of visa you will need. Most countries require a specific type of visa to perform unpaid internships/research (<u>not</u> a tourist visa). While not required, you may consider using an outside provider for the visa process. Students studying abroad before or after the intended internship need to contact Nadir Ovcina in Whitman's Off-Campus Study office, their study abroad program, and the relevant embassy/consulate to make sure that they can combine an internship and study abroad experience. If you are or will be studying abroad, please contact Nadir <u>before</u> you apply for the International Whitman Internship Grant.
