

This area of the Transfer Equivalency Report (TER) shows the institution attended. Each institution will appear on a separate report.

Two transfer courses counting toward one Whitman course; the extra credits are transferred as Humanities credit.

This transfer course was a direct equivalent to a Whitman course. It appears with the Whitman course title information (ECON-101), but the number of credits awarded depends on the credits earned at the other institution. For example, ECON-101 is usually worth 4 credits at Whitman, but here it only transfers for 3 credits because that is what ECON-201 was worth at Averycool Community College.

This course fits into a specific department, but is not equivalent to a specific Whitman course. If the department listed offers a major or minor, this course could count toward those requirements.

This course was worth more credits at Averycool Community College (4 credits) than it is at Whitman (3 credits), so it transfers for the direct equivalent (MATH-125), plus one additional credit of Quantitative Analysis.

“Elective” credit may be awarded when courses from a college on the quarter system are transferred. Whitman uses a 2:3 ratio to convert this credit into semester credits (3 quarter credits = 2 semester credits). Whitman does not round up for any extra 1/3 or 2/3 fractions, BUT, these extra fractions are added together at the end and may appear as Elective credit (again, rounding down if the total is not an integer).

### How to Read the “Course/Subject/Crs Lvl” Column: There are up to three parts to the listing: TRAN-TF.OC

#### Part 1: Department

- if it is the direct equivalent of a Whitman course, the appropriate course is listed  
ex: PHIL-117, RWPD-170
- if it fits into a particular department (appropriate for major credit), but is not equivalent to a specific course, the department is listed, along with the distribution area  
ex: HISP-TF.HU, MATH-TF.QU
- if it does not fit into a particular department, or is not accepted for major credit by that department, the course is listed as other transfer credit, with a distribution designation  
ex: TRAN-TF.OC, TRAN-TF.SCL

#### Part 2: Type of Transfer Credit

- if it is general academic transfer credit (or from an Approved Off-Campus Study program), the middle section is “TF”  
ex: ECON-TF.SO, TRAN-TF.OC
- if the credits are from a Partner Off-Campus Study program (formerly called “Affiliated”), the middle section is “AF”  
ex: TRAN-AF.HU, POL-AF.SO
- if the credits count as activity credits (music ensembles, theatre productions, sports & dance classes, etc.), the middle section is “TFA”  
ex: SSRA-TFA.OC, MUS-TFA.FI

#### Part 3: Distribution

- |  |  |   |                                    |                                   |                                 |  |   |                                      |
