## Question of the Week: Answer Edition

● Never have to work again ● Never have to sleep again

This week we asked: Would you rather never have to work again or never have to sleep again (you won't feel tired or suffer negative health effects)? No need for sleep would definitely give you a lot more hours to live life, but then again permanent retirement sounds pretty good too – and that's what the majority of question responders chose.

"Whitman Today" is produced by the Office of Communications and is emailed Monday-Friday to Whitman College staff, faculty and students. All times are listed in Pacific Daylight Time.

Submissions are welcome! If you have a professional or personal accomplishment to celebrate, an event to publicize or other content to share with the Whitman community, email [whitmantoday@whitman.edu](mailto:whitmantoday@whitman.edu). Submissions should be 125 words or less. The deadline for submissions is noon for the following day's newsletter, though submissions may be held for a later date according to space and editorial needs.
